PROFESSIONAL SUMMARY

Mobile Application Engineer with 2+ years of experience designing, developing, and releasing cross-platform Flutter applications for education, productivity, and document management. Skilled in Dart, Flutter, BLoC, GetX, Provider, REST API integration, offline-first architecture, SQLite, Firebase, AWS, Google ML Kit, and TensorFlow. Proven ability to deliver production-ready mobile features, publish and maintain Play Store applications, troubleshoot integrations, and coordinate releases across teams.

SKILLS

- **Mobile Engineering:** Flutter, Dart, responsive UI, navigation, reusable components, performance debugging
- **State Management:** BLoC, GetX, Provider
- **AI & Machine Learning:** Google ML Kit, TensorFlow
- **Backend & APIs:** RESTful APIs, asynchronous programming, error handling, retries and integrations
- **Data & Storage:** SQLite, Floor, Hive, caching and offline-first architecture
- **Cloud & Backend Services:** AWS (Cognito, S3, EC2), Firebase, Supabase
- **Release & Quality:** Play Store deployments, app maintenance, GitHub Actions (CI/CD), Appium testing

EXPERIENCE

Mobile Application Developer Aug 2026 – Present

Sapphire Consulting Services

- Develop and maintain production Flutter mobile applications, implementing responsive interfaces, user journeys, and API-driven features.
- Integrate backend services and troubleshoot application issues to improve reliability, maintainability, and release readiness.
- Support production releases and collaborate with cross-functional team members to deliver stable mobile application updates.

Freelance Flutter Developer 2 years

Independent Contracting

- Built and delivered customer-facing Flutter applications end-to-end, from reusable UI components and API integration through deployment and post-release support.
- Partnered with backend developers to align REST APIs, resolve integration issues, and maintain reliable user flows.
- Managed task follow-ups and coordinated delivery across contributors to keep feature development and releases on track.

PROJECTS

Ascender Online — Educational Platform (Freelance, Team Lead)

- Admissions/onboarding, course delivery, quizzes/results, push notifications, and release support.
- Coordinated delivery with collaborators, clarified requirements, and supported iterative releases with fixes and improvements.
- **Stack:** Flutter, GetX, REST APIs, AWS (EC2, S3, Cognito), PostgreSQL
- **Play Store:** View Ascender Online

IMAT — E-Learning Platform (Freelance)

- Course discovery, video lessons, progress tracking, quizzes, and transaction flows.
- Implemented stable navigation and state handling for consistent user journeys across learning modules.
- **Focus:** predictable app behavior with GetX and reusable UI components.
- **Play Store:** View IMAT

Routinely — Habit Tracker & Todo Manager (Self Project)

- Offline-first app with reminders, analytics, and export/backup tools; built and maintained end-to-end.
- Designed local data flows and scheduling logic for reminders to keep the app fast and reliable even without internet.
- **Stack:** Flutter, GetX, SQLite, local notifications
- **Play Store:** View Routinely

ScanLite — Document Scanner & Converter (Self Project)

- Multi-page scanning, OCR extraction, PDF generation, and conversion tools; designed for stability and user support.
- Built user-friendly workflows for scan organization and exporting/sharing documents with consistent output quality.
- **Play Store:** View ScanLite

EDUCATION

Bachelor of Software Engineering Nov 2021 – Dec 2025

Mehran University of Engineering & Technology (MUET), Jamshoro (HEC Recognized)

LEADERSHIP

- Co-Lead, Google Developer Student Clubs (GDSC), MUET
- President, Delta Tech Info (DTI)
