PROFESSIONAL SUMMARY

Mobile Application Engineer with 2+ years of experience building and shipping Flutter apps, including 4 live on Google Play across e-learning, productivity, and document scanning. Works across the full app stack: GetX/Provider state management, REST and Stripe integrations, offline-first storage, and AWS (Cognito, S3, EC2) backends. Has led Flutter delivery on client projects from first build to Play Store release.

SKILLS

- **Mobile Engineering:** Flutter, Dart, responsive UI, reusable widgets, navigation, maps (flutter_map), video playback
- **State Management & Architecture:** GetX, Provider, BLoC, clean architecture (data, domain, presentation)
- **Networking & Integrations:** REST APIs, Dio, token-based auth, Stripe payments, Firebase Cloud Messaging, local notifications
- **Data & Offline:** SQLite (sqflite), Floor, Hive, SharedPreferences, offline-first design, backup/restore
- **On-Device AI & ML:** Google ML Kit (document scanning, OCR), TensorFlow model integration via APIs
- **Cloud & Backend:** AWS (Cognito, S3, EC2), Firebase, Supabase, Node.js/Express, FastAPI
- **Release & Quality:** Play Store publishing, Android release signing, GitHub Actions (CI/CD), Appium UI testing, Git

EXPERIENCE

Mobile Application Developer Aug 2026 – Present

Sapphire Consulting Services, Karachi

- Ship Flutter features end-to-end in production apps, covering responsive UI, state management, and REST API integration.
- Trace and fix production defects across UI, networking, and local data layers to keep releases stable.
- Work with backend developers on API changes and support production releases with post-release improvements.

Freelance Flutter Developer Aug 2024 – Aug 2026

Independent Contracting, Remote

- Led Flutter delivery for 2 client e-learning apps, Ascender Online and IMAT, from first build to Google Play release and post-release fixes.
- **Ascender Online:** integrated REST APIs, Firebase push and local notifications, protected video playback, and a map-based campus module; set up GitHub Actions CI/CD.
- **IMAT:** built on GetX with clean architecture (data, domain, presentation); integrated Stripe payments, secure token storage, video lessons, and quizzes.
- Coordinated day-to-day with backend developers to align API contracts and resolve integration issues before release.
- **Live:** Ascender Online (Google Play) | IMAT (Google Play)

PROJECTS

Routinely — Habit Tracker & Todo Manager (Self Project, Live on Google Play)

- Built end-to-end as an offline-first app: weekly/monthly habit cycles, streaks, achievements, and todos with priority and due dates.
- Implemented scheduled notification workflows (daily reminders, streak-risk alerts, weekly summaries), fl_chart analytics, CSV/PDF export, and JSON backup/restore.
- **Stack:** Flutter, GetX, SQLite (sqflite), flutter_local_notifications, fl_chart | Google Play

ScanLite — Document Scanner, OCR & Converter (Self Project, Live on Google Play)

- Built multi-page document scanning with Google ML Kit, image filters, PDF generation, and OCR text extraction, with English and Urdu support.
- Developed a FastAPI microservice for Office-to-PDF, PDF-to-Word/Excel/PPT conversion, and PDF merging; configured Android release signing for Play Store.
- **Stack:** Flutter, Provider, Hive, Google ML Kit, FastAPI, PyMuPDF, Tesseract | Google Play

Cropix — Crop Disease Detection & Community App (Collaborative)

- Built the Flutter client: leaf-image capture and multipart upload to a TensorFlow inference API, results with confidence scores and treatment advice, and a community feed.
- Implemented Cognito sign-in through AWS Amplify and deployed the FastAPI backend on AWS EC2.
- **Stack:** Flutter, GetX, AWS Amplify/Cognito, FastAPI, TensorFlow, AWS (EC2, S3)

LocateLost — Missing Children Reunification Platform (Final Year Project, Team Lead)

- Led the project team, coordinating Flutter and backend work across the build.
- Built the multi-role Flutter app (parents, finders, police) for case reporting, image upload, and status tracking, backed by facial-matching APIs.
- **Stack:** Flutter, GetX, Dio, Node.js, PostgreSQL, AWS (Cognito, S3, EC2), OpenCV

EDUCATION

Bachelor of Software Engineering Nov 2021 – Dec 2025

Mehran University of Engineering & Technology (MUET), Jamshoro (HEC Recognized)

CERTIFICATIONS

- **AWS Cloud Technical Essentials —** Coursera (IAM, Cognito, EC2, VPC, cloud security)

LEADERSHIP & ACTIVITIES

- Co-Lead, Google Developer Student Clubs (GDSC), MUET
- President, Delta Tech Info (DTI)

Languages: English, Urdu, Sindhi
